

SPECIFICATION SHEET

2 D-ring harness

CODE: AR-2

DESCRIPTION

Designed for working at height, this full-body safety harness is made with certified high-strength webbing and features dorsal and chest D-ring attachment points for ascent and descent. An integrated fall indicator, adjustable chest, side, and leg buckles ensure a secure, comfortable fit, while a reinforced triangular hook holder provides a secure place to park the lifeline hook when not in use.

ATTACHMENT POINT
BACK AND CHEST
